Welcome to Beginning Pastels!

I'm delighted that you have chosen to spend 5 wonderful days with me diving into the fabulous medium of pastel! Ghost Ranch is an amazing place to be inspired, and I will share with you everything you need to know to go out into the world inspired to explore your voice in pastel. You will learn a broad swath of information from the basics of the materials themselves, to how to make beautiful marks, then on to creating a painting you can feel proud of!

All you need in addition to the materials on the list and a dedicated notebook, is a sense of adventure and willingness to learn. Welcome to four days of creativity with me and a set of pastels!

Itinerary:

Our mornings will begin early, when the best light is. Plan to work until lunch!

Afternoons will include a few hours of studio and one-on-time, outside whenever possible.

Evenings are free-time.
